SUMMARY

I'm a passionate .NET Developer with over six years of professional experience in building web and mobile applications. My career journey has seen me contribute to various projects, from web applications to mobile solutions, utilizing technologies such as .NET, Xamarin, React, and Azure DevOps. I'm always eager to learn and embrace new challenges, particularly in the ever-evolving field of technology. Outside of work, I have a keen interest in space industry advancements and staying active through sports.

EXPERIENCE

Fullstack .NET Developer

MW IT SOLUTIONS MARCINIAK, WINTER S.C

📅 2022 - Present   📍 Poznan, Poland

Development and maintenance of software applications and infrastructure using Microsoft stack

- Developed additional solutions that enhanced the performance and accuracy of the company's main product, resulting in increase in efficiency and cost reduction.
- Successfully migrated the web application from Visual Basic to .NET 6, which led to faster application speed, improved security and better scalability.
- Designed and implemented an SMS dispatch system that is required to operate continuously.
- Created several other smaller systems that contributed to the overall improvement of the company's operations and product offerings.

.NET Developer

ADHD Interactive

📅 2022 - 2018   📍 Poznan, Poland

Development and maintenance mobile and web applications using Microsoft stack

- Developed a mobile application using Xamarin, along with an environment for generating reports, introducing new data, and managing various operational tasks.
- Created a content management system (CMS) tailored for municipalities, enabling the creation of showcase websites and the management of real estate listings.
- Developed numerous other smaller applications, primarily focused on research and development, driving innovation and testing new concepts within the company.

Junior .NET Developer

POINTER

📅 2017 - 2018   📍 Poznan, Poland

Participated in designing, developing and testing of software applications with .NET stack

- Contributed to the design and development of web applications using .NET
- Assisted in database design and optimization
